

WIND

Sistemi Idronici per il Clima

CENTRIFUGAL FAN - COILS

Elegant and Functional

- › Simple, attractive design.
- › 120 basic models, differing sizes and versions.
- › Floor-standing, suspended, built-in, ceiling-mounted, suspended-ceiling installation, ductable. With bottom or front air intake and top or front air outlet.
- › For 2 or 4-pipe systems, with 3 or 4-row exchangers.
- › Cased units with airflow direction louvers.
- › Decorative panels in lacquered wood or painted sheet metal.

Components

Chassis in galvanised (0.8 mm), insulated sheet metal. Condensate-drain pan in galvanised, insulated sheet metal with fittings for condensate drainage.

Knock-outs on side panels for easy factory or site fitting of accessories. Slots on rear of pane to facilitate wall-mounting.

Heat exchangers consist of Aluminium fins mechanically expanded onto copper tubes in a continuous block.

Frame in galvanised steel, brass headers with female 3/4" gas fitting. Air vents on both headers. Standard water connections on left-hand side; right-hand side on request. Coil can be easily rotated if necessary.

Electric fans

Single-phase asynchronous motor with 6 speed settings (3 connected in the factory) with overload cutout.

Anti-vibration mountings for low-noise operation.

Three-dimensional double-inlet centrifugal fans with aluminium impellers. Statically and dynamically balanced.

All fans are run tested during final on-line test and inspection procedures.

Filters

Metal frame containing honeycomb polypropylene filter media. Easy to remove and clean. Standard filters are to EU1 efficiency; other efficiencies available on request.

↓ VERTICALS

Eden[®]
Sistemi Idronici per il Clima

Casing

Hot-galvanised sheet metal pre-coated with a PVC film to increase resistance to corrosion.

Airflow direction louvres in ABS or nylon.

Colour of housing: white. Colour of louvres: light grey. Other RAL colours available on request.

Decorative panels

For vertical wall recessed type and horizontal ceiling concealed type, decorative panels in white lacquered wood or white PVC-coated galvanised metal are available.

The panels come complete with air intake and outlet grilles and filter.

Accessories

Electric heating elements | 3 or 4- port valves | On-off and balancing valves | External air intake dampers (manual or motor-operated) | Inlet and discharge plenums | Auxiliary coils | Condensate drain pans | Telescopic extensions | Plinths | Decorative panels | Condensate drain pumps, etc.

↓ **HORIZONTAL**

↓ **CONCEALED**

Controls

For versions with Casing (Vertical version):

Standard: Summer/off/winter switch + 3-speed fan switch.

Optional: Mechanical thermostat (to be added to the standard switch).
Minimum temperature thermostat.
Electronic room temperature control complete with inlet air temperature sensor, summer/off/winter switch, 3-speed fan switch.

For recessed versions:

Terminal strip applied to the side of the fan coil for connection to the wall-mounted controller.
Manual, semi-automatic and automatic controls, with display and infrared remote control on request.

CE Mark

The CE Mark indicates that Eden S.r.l. guarantees conformity of the appliances with the Machinery Directive 89/392/EEC, the Low Voltage Directive 73/23/EEC and the Electromagnetic Compatibility Directive 89/336/EEC and subsequent amendments.

Warranty

Eden fan coils are guaranteed against defects due to faulty materials or workmanship for 2 years from first start-up of the installation (see the terms of warranty).

Eden S.r.l. reserves the right to change technical data and dimensions at any time without notice.

- Standard unit with free outlet (External static pressure= 0 Pa)

 Sound power level: secondo ISO 23741.

 Sound pressure level: The sound pressure level is 8,6 dB(A) lower than the sound power level.
